

Louisiana

On November 21st leaders of Rural Health from across the country will celebrate **National Rural Health Day** in recognition of the tremendous accomplishments that have been achieved in rural healthcare. In this spirit, iVantage Health Analytics offers a data-driven program to recognize excellence across a broad spectrum of indicators relevant to hospital performance and patient care.

The National Organization of State Offices of Rural Health (NOSORH) and iVantage Health Analytics recognizes Louisiana as having 22 hospitals reach top quartile performance status in Quality, Outcomes, Patient Satisfaction, Efficiency and overall performance compared to all acute care hospitals in the nation. The rankings have been designated by the Hospital Strength Index™, the first rating system in the country to include all rural providers.

2013

4 Rural Hospitals are recognized for Excellence in Quality – Top quartile performers in the Quality-Base pillar of the HSI (AMI, HF, PN, SCIP, OP Process of Care Scores)
